

Parkland Head Injury Association

The Parkland Head Injury Association is another community initiative the Edmonton Woodturners Guild supports.

- Members turn small projects such as spin tops, Christmas tree ornaments, lidded boxes, or any project you like.
- Donated projects should not be fully sanded and unfinished.

Donated projects are used as part of patient therapy. Items are finished by the patients to help establish small motor skills and are sold in their fund raising efforts.

For further information about EWG's involvement with the Parkland head Injury Association contact Menno Klaassen at mennoturns@gmail.com or 780-9401558
